

National Rehabilitation Games

Voluntary Service supports GLA athletes to participate in the four VA National Rehabilitation Games: Winter Sports Clinic, Golden Age Games, Wheelchair Games, and the Creative Arts Festival.

The VA GLA has historically sent a very strong team that has returned to Southern California in triumph, and with many tales of improved self-esteem and improved outlook on life. To send a patient/veteran to a Game takes approximately \$1200, however, and our team needs all the support our community can provide. If an organization decides to support an athlete, that athlete will report back to the organization upon their return from the Games, and share the glory with everyone who so generously supported their endeavor.

Donations can be made to the VA Greater Los Angeles Healthcare System General Post Fund 2071, and employees may support our team by donating through the Combined Federal Campaign to Account 8025.
